

**Dalhousie Computer Science Society Executive Meeting With Building Architects  
Minutes  
5:30pm – Thursday June 5th 2008 – Atrium of the Computer Science Building  
Compiled By: Liz Legere**

Roll Call:

Andrew Aikens  
John Doucette  
Liz Legere  
George  
George  
Omar  
Susan

**1.) Building Design:**

**The building is 4 stories, the main entrance is on Le-Marchant Street, the CS Faculty will get the top floor, and the server room is on the 1<sup>st</sup> floor.**

- a. **1<sup>st</sup> floor: continuing education, Ocean research**
- b. **2<sup>nd</sup> floor: continuing education, student commons (2)**
- c. **3<sup>rd</sup> floor: grad space, student commons (2)**
- d. **4<sup>th</sup> floor: CS floor: research space + 4 labs, student commons (2)**

**2.) What do we want in our student commons:**

- a. **Collaborative study space**
- b. **White boards**
- c. **Comfortable couches/chairs for sitting (like the learning center)**
- d. **Idea: since there are 2 student commons on each floor, have in one of them table and chairs with whiteboards on either sides of the room and have in the other one couches and coffee tables with whiteboards on either sides of the room.**
