  - Nothing to report
- **Faculty Rep – Denis Riordan**
  - ~50 more students in co-op this year than last year
  - Trying to upgrade the quality of positions. Dal isn't getting its share of high end co-op positions. The co-op office hasn't been doing a very good job of chasing after the high end jobs. It's being re-organised. We're joining science now instead of engineering.
  - Mona Campbell is becoming a research building. Not a bad thing at all.
  - New Network and security lab. Class sizes are going up. Students spend more time fixing old computers than learning/doing labs. Hoping to get up and running by September.
