

## **End of term report of Winter 2007**

To,

**The CS Society,**

Comp. Sc. Dept.

Dalhousie Univ.

- 1) The meetings of the society during this term proceeded under the president ship of Jeremy Gallant.
- 2) The MHI and MEcom lab or room which existed in the present seminar room (room 3) of 1<sup>st</sup> floor, was shifted to 2<sup>nd</sup> floor behind the D-drive during the Fall 2006. Due to the shifting, there were a few differences in the facilities existing from the first to the second accommodation.
- 3) Hence fellow MHI students requested for some facilities, like the couches and the wall clock to be put back for comfort.
- 4) This was proposed during one of the term's early meetings to the CSS committee.
- 5) In the end of the term of Fall 2006, it was mentioned/compromised that the wall clock and the extra chairs in the D-drive were to be of the some comfort for the MHI-MEcom room as well, as the room is very close to the D-drive/learning center. Which has been so till date.
- 6) During one of the early meetings in Winter 2007, I passed a motion for the CSS fee/deposit, collected in the term fee, of DAL, to be given back to the CSS members. It was seconded and the motion was passed.
- 7) It was executed in the term end, and \$15 was refunded (as a cheque) to the members, whom the CSS council decided a 'Yes' on unanimously.
- 8) Then the academic term ended and new elections for the next term of CSS was conducted. And new council members were elected for the Summer 2007 term.

Thanking you,

Asha Sundareshan.
